

# Take control of your expense reports with JumpSeat.

**Make it easy to navigate & learn SAP Concur solutions.  
Anytime. Anywhere.**

When employees have to learn & re-learn an essential system they get frustrated. When they can't get it done easily, they put it off.

JumpSeat helps travelers become experts in SAP Concur solutions. Step-by-step in-application tutorials make it easy to support your people with fresh up-to-date guidance constantly.

JumpSeat integrates with SAP Concur solutions to make onboarding employees easier than ever so you can boost traveler satisfaction and reduce frustration with expense reporting.

## JumpSeat Advantages:

### Contextual Guidance

It's hard to learn a new system without physically seeing and interacting with it. With JumpSeat your team can learn by doing! It's time to take training out of the classroom.

### **Persona Based Learning**

With complex applications, it's not enough to just teach users the basics. They need on-going training that's tailored to their specific role. JumpSeat specializes in personalization.

### **Accessible 24/7**

JumpSeat is always online, up-to-date, and accessible. Now your users can throw out that ten-month old user guide and pesky IT tickets will be a thing of the past.

**Set up your free trial by connecting from the SAP Concur App Center today!**

## **Get up and running with JumpSeat in three easy steps.**

### **1. Get in Touch**

Talk to a consultant to explain your user's needs and get a personalized demo to see JumpSeat in action within your SAP Concur solutions.

### **2. Sign Up**

Set up your account for free from the SAP Concur App Center when you submit a request.

### **3. Take Off**

Deploy a customized guide on your system and watch users take flight.

**Imagine on-demand training delivered inside your SAP Concur system itself... Are you ready to simplify your work life?**
